

**The following came to Angie Fuchs via e-mail from Rob Berendt of the Ft. Wayne IN users group:**

I've spoken a couple of times to the STATUS Fort Wayne Indiana users group.  
One presentation was on SQL DDL vs DDS.  
The other was on Imbedded SQL in RPG.

I might be willing to speak at one of your groups if there is a speaker there would be agreeable to speak at one of our meetings.

Our group's dates:

Tuesday February 13

Tuesday March 13

Tuesday April 10

Tuesday May 8. But this one is a little flexible. We try to schedule a full day seminar at the May meeting. Some speakers like the nightly meeting the day of. Others the day before. Day before is a one night stay and makes catching a flight easier. Those who don't drive quite so far may differ - get it done in one day and get back home that night.

Time: 6:00 P.M. Social Adjustment

6:30 P.M. Dinner

7:15 P.M. Testimonial

7:30 P.M. Speaker (for about an hour)

Location: Goeglein's Reserve

7311 Maysville Road

Ft Wayne In

(a map to this location can be seen at [www.statususer.org](http://www.statususer.org))
